From the Principal's Desk

Education encompasses not only knowledge but is a harmonious blend of the arts, sports, emotions, creativity, attitudes, nature and life skills. When education is true and holistic it enables a sense of joy and satisfaction. This ideally must lead to a happy state of mind.

Mental health holds as much importance as physical health does. To be at peace, to enjoy being with oneself and with the people around. How does one work towards keeping a balanced state of mind in other words how do we stay happy?

A lot of research has been conducted on this and many books have been written to direct us towards a happy space. If we follow the simplest philosophies of maintaining a routine, having a hobby, building good relationships with family and friends, and not straining ourselves too much with desires, we may acquire 'khushi'. With little children, if parents and teachers can simplify tasks into a process with smaller steps, every step acts as a reinforcement bringing not just one smile but multiple. With the older ones, informal yet mindful chats and just being together at home can lighten the heart.

Food plays a very important role. To eat well yet not overeat, have home cooked meals, on time and to understand that it cannot be wasted keeps the mind grounded. Encouraging young ones to chop, cut, cook, serve and clean up not only gives them things to do but also instils values, of appreciation and of labour. Most of the time children learn from examples set by elders. If we are able to simplify our lives, slow down, be aware and above all let go, we have already worked towards happiness.

Smita Pendharkar, Vice Principal.

Big News!

April and May brought with them a flurry of energy and activity. The excitement of meeting friends, teachers, classmates and colleagues after almost two years was infectious. It did not take too much time for all to roll back to offline methods and systems. Students quickly took to attending school regularly and adjusting to fixed schedules. The 2021-'22 batch of classes 10 & 12, successfully took their Term II Board Examination. Teachers had been in constant touch with them, to motivate them and to guide them. They made sure to be at the centre on all examination days to wish them the best. We feel proud of our students and are confident that their efforts will be well rewarded.

The extra classes in the month of May for the 2022-'23 batch of classes 9, 10 and 12 were fruitful. After a restful summer break, we look forward to getting back energised and rejuvenated for all that the coming months will bring.

Flavours from our orchard

Physical School Resumes (4th April)

Day one was exciting especially after a long wait of two years. The end of the pandemic brought in the euphony of chirps back to school. The classrooms were decked up to welcome the students. The first day saw good attendance. Be it teachers or students, we all were waiting for this morning to brighten up our lives again.

Amrita Kar Dhar, CT, Jr.KG Apple

Know Yourself and Major Body Parts (4th April - 8th April)

At the onset of the Academic Year 2022-23, the little ones of the Pre-Primary were introduced to the topic Know Yourself. It enabled the first step for them to be able to introduce themselves. Knowing their own name, age, where they stay and what they like to eat were incorporated with interesting age relevant activities. The Nursery and the Jr.Kindergarten did palm printing and the Sr.KG did the Say Cheese Activity. Under the topic of knowing the body parts, the Nursery students had fun placing cut outs of different parts of the body on an outline sketch.

Amrita Kar Dhar, CT Jr.KG Apple

Know your School (11th April - 13th April)

School and childhood are inseparable. Although it was a long wait, the little Orbians came back to school, physically, all excited and supercharged. Making them comfortable and feel at home was a priority for the teachers. The teachers had classroom conversations on knowing your school, after which the Pre-Primary children were taken on a tour around the school to familiarise them with the different zones in the school. All the children were happy and excited.

Hufrish Dutt, CT, Sr.KG Orange

Good Manners (18th April - 22nd April)

Words such as 'Please', 'Thank you' show respect and consideration and are hence termed as Golden or Magical words. To be polite and use good language is important and this must be taught to the children at an early age. The tiny tots of nursery school enjoyed learning them through a story. The Jr. KG and Sr. KG children were given different situations in which they had to use suitable golden words. Thus, the first step of using good language was taken by the little ones.

Hufrish Dutt, CT Sr.KG Orange

Know Your Classroom (25th April - 27th April)

After the first lessons of Know Yourself, the little ones were now ready to learn about their classroom. Each classroom has been dressed up beautifully with bright and happy pictures by the teachers. Through the use of flash cards and picture talk, the little ones of the Nursery section continued their journey of learning by knowing more about their classroom. Also, the Jr. Kindergarten tiny tots enthusiastically identified different objects in the classroom while the Sr. Kindergarten children happily drew their classroom in their drawing file.

Uttama Purohit, CT, Sr.KG Apple

I Know More, I Grow More

Zoomer Activity (13th April)

Whoever is happy will make others happy too - Anne Frank

The little ones of classes 1 and 2, enjoyed a different way of learning through fun and games. The zoomer activity is all about physical and mental exercising. Children look forward to their turn with zeal and excitement. This week they started off with some warm up exercises followed by a balloon game.

Firdos Khan, CT 1 Vega

World Earth Day (22nd April)

Keep Mother Earth happy and she will keep you safe.

We started our day by sharing this beautiful message with our students of classes 1 and 2. Children were asked to share their thoughts on how to protect Mother Earth. Creative writing activity on World Earth Day was also conducted and children were excited to share their thoughts about it. They were also encouraged to think and work towards simple ways of saving water, planting trees, and using recycled products to save our beautiful planet. Students of Grade 12 Sirius also raised awareness about saving the planet earth in the open assembly.

Shikha Dixit, CT 2 Vega

IBA - World Earth Day (22nd April)

World Earth Day has been celebrated since 1970. It was first observed in the United States, when people took to the streets to protest against the 1969 Santa Barbara oil spill, which killed thousands of seabirds, dolphins, seals, and sea lions. Earth Day celebrations have played an important role in raising awareness around environmental issues ever since. The theme for this year, Invest In Our Planet is the moment for us to change it all. Our school celebrated World Earth Day, by way of an inter-house competition for classes 6 to 8. We made groups and had meetings, wherein our teachers shared ideas on how we could invest in our planet. We made posters and wrote slogans and submitted them to the teachers incharge who with the help of some students decorated the board with our creative expressions. There were few teachers who inspected the display boards of all the four houses and the next day the results were announced. It was very difficult for them to decide as all the houseboards were beautifully put up. Our Vice Principal, Smita Ma'am, announced that the Explorers - my house won, and I was happy that I had contributed. Ma'am also appreciated the effort put into it and asked everyone to participate wholeheartedly in such activities.

Shravanii P. Dabir, Student 7 Sirius

CBSE Class 10 and 12 Term II Boards Commence (27th April and 7th May)

Students of classes 10 and 12 were well prepared and confident to take their Term II Board Examination. Teachers were at the centre to wish them good luck. We feel happy and proud at the same time to see the hard work put in by the students. We celebrate this milestone for both the school and the children of classes 10 and 12.

N.I.E Quiz (27th April)

Learning gives creativity, creativity leads to thinking, thinking provides knowledge and knowledge makes us great. The school conducted a quiz for classes 3-5 based on the weekly N.I.E study material uploaded for the students based on their level of understanding and learning capability. It was based on various topics like Sports, Science, General Knowledge and Vocabulary. The students showcased their brilliance by rapidly answering the questions. It was a very informative and knowledge enriching experience for all.

Batul Partapurwala, CT 4 Vega

Conscious Parenting Workshop, for Orbis Parents (7th May)

Parenting is a process of caring for your child. It is ensuring their health and safety, transmitting cultural values, preparing them for adulthood. Most traditional methods of parenting were unconsciously driven. That led to parents presuming to be greater than, to know more, unaware of themselves, having unmet emotional needs, thus, leading to mishaps and creating a dysfunction within the parent-child relationship. Hence, a workshop on Conscious Parenting was conducted for the parents of class 10 students. Conscious parenting is becoming self-aware, calm and being in the present moment. It is not trying to fix the child as per one's own thoughts and beliefs. It is not reacting from one's ego. Parents need to regulate their own emotions, heal their own childhood traumas and break the cycle of passing on the same wounds. It was an engaging experience.

Christina Shirsath, Academic Counsellor

Bridge Course (28th April - 10th June)

Bridge courses are support classes to help students cope with and cover topics they may have missed during online classes. It is an endeavour to help children overcome challenges they may be facing in certain areas of learning. This course will help the students clarify their doubts and brush up on the basic concepts and above all shall be helpful in building their confidence level. For classes 1-5, basic concepts of English, Hindi, Marathi and Mathematics which were taught in the previous academic year were revisited. We are extremely positive that our little ones will take tiny but steady steps towards success with the help of the support classes. Each session is well planned, short and focuses on key areas. The Bridge Course has been divided into two sessions 'Pre Summer Break and Post Summer Break'.

This course will give enough time to the students to clear their basic concepts and make the transition to the next class smoother.

Club of the month

Etiquette Club (18th April)

Co-Curricular Activities aim at improving academic performances, social skills, management skills, life skills and much more. They also help enhance concentration in children. This year the Co-Curricular Activities for classes 1 and 2 started with the Etiquette Club. Activities planned under this club help to understand societal norms and positive behaviour. Topics addressed include empathy, respect, kindness and general ways of carrying oneself in society. Children were introduced to different etiquettes in a creative way. It was indeed an enriching experience for all.

Swati Poddar, CT 1 Deneb

Special Assemblies

World Earth Day (22nd April)

Morning assemblies are a platform where young minds share their ideas and thoughts. They exhibit confidence and team spirit. A special assembly was conducted by the students of classes 5 Vega and 8 Vega on 'World Earth Day' to spread awareness about conserving Mother Earth. Conducting an assembly after two years was an overwhelming experience, full of excitement and anxiousness. Our fellow mates encouraged us with bright smiles on their faces. Students emphasised the importance of afforestation, sustainable practices and the need for everyone to protect the environment. Every child was given an opportunity to display their talent and share what they felt. It was a wonderful performance by all the students. The class teachers concluded the assembly by emphasising upon the need to spread awareness about the environment and to conserve it.

Priyal Loya, Student 8 Vega

Special Assembly (27th April)

The final assembly before the summer break was conducted by class 8 Sirius and the theme of the assembly was *New beginnings*. The students conducted the morning address which was based on the word '*inception*'. The thought for the day inspired us to be honest, which is also the value for the month. When we hear the word, *class*, the first thing that would come to our mind is a room full of students and a teacher. It is a new year, a new session, new classmates, and new teachers. Keeping this in mind we put up a skit on *New Beginnings* highlighting the first day of the new students and the challenges they may face in making friends and adjusting. The assembly ended with a song '*Carriers of the light*' sung by our melodious classmates which encouraged us to be ignited, look forward, shatter the darkness and face our fears. Our teacher Olivia ma'am also spoke about being confident, facing challenges, overcoming our fears and moving forward. Our Vice Principal, Smita Ma'am spoke about avoiding bullying and being empathetic to our fellow classmates. It was a great learning experience presenting our assembly and I look forward to many more such opportunities.

Diya Vettathu, Student 8 Sirius

Our Green Ways

The SEWA form had to be filled and the pandemic gave me a lot of time at disposal, so I decided to 'Go Green'. Collecting bio waste like peels of fruits and vegetables from the kitchen, I decided to compost it all. I dug a pit in my garden to prepare the compost pit, and layered it with the kitchen waste, soil and dried leaves. It took about two and half months for my 'black gold' to be ready. Then it was time to sow some seeds. Tomato and Lady finger. I watered them daily, watching the seeds sprout and then grow gracefully bearing flowers and then the fruits of my labour. It was a rewarding journey and made my heart swell with pride. I even made a bird feeder at home using a coconut shell. It hung in my garden, and I watched tiny birds enjoy the grains each morning. It was a tough job trying to click the agile birds. But I enjoyed watching them and hope to continue my green ways in the future.

Krishh Singh, Student 10 Deneb

Inter House Results: IBA for Classes 6 to 8 on the theme, 'World Earth Day'

Event /	IBA
Participating classes	Classes 6 to 8
EXPLORERS	1
GUARDIANS	2
INNOVATORS	3
VANGUARDS	4

Here are some special achievements of our students that happened beyond the school premises, in Inter School, Inter City or Open competitions! We applaud the effort. Keep Shining!

Kaarunya Anklekar of Class 9 Antares won the 2nd prize for her artwork titled, Fog Takes its first Step at the Robinage Bright Sparks Award, a children's newspaper. We congratulate her and wish her the best for all her creative endeavours.

Varadh Undre and Smith Undre of Class 6 Deneb, won the doubles match at the All India Tennis Competition, Under 12. Smith also won the singles at the same competition. We wish them both the best and feel very proud of them for participating in and winning in such a prestigious event.

Swarali Mane of 5 Rigel is slowly yet steadily making a name for herself as a proficient tabla player in the world of music. We congratulate her and feel very proud of her. May she continue to create and play music and earn the fame she deserves.

Achievements by our Little Orbiens

Class	Name of the student	International Rank
4	Suryansh Suraj Jirwankar	IGKO - International Rank 2
4	Aaryan Atal	IGKO - International Rank 4
5	Sanyukta Sudame	IEO - International Rank 1
4	Aaryan Atal	NSO - International Rank 3
5	Dhruva Yadav	NSO - International Rank 3
7	Manasij Jyotishka Mondal	NCO - International Rank 3
4	Sanvi Galatag	IMO - International Rank 1
5	Dhruva Yadav	IMO - International Rank 1
5	Bhuvi Sahni	IMO - International Rank 3

Impressions and Expressions

All Creatures Great and Small

The chirping of the birds
The mosses and the ferns
The flowing waterfall
And trees that stand tall
The gentle blowing breeze
And the leaves of the trees
The scent of the flowers
And the lovely small showers
Nature we will save
For mother Earth's sake.

Swara Thakare, Student 9 Sirius

Peace

Every drop of water
Is a blessing on earth
Every ray of Sun
Is a ray of Hope
Every petal of flower
Shows love on Earth
Every smile on Earth
Shows going on is worth
Forget the past, enjoy the present
Trust the future, nurture nature.

Medha Mali, Student 9 Sirius

Old Days

Books, fun, laughs and giggles
Imagining sea gulls to be pigeons
We cackle about a joke or two
Boys about girls and girls about boys
On those days when the tiffins were one
But hands were twenty
Our miser fights about cents and pennies
But now we are stuck and limited
Can't hear what the teacher says
Oh God, I wish just please bring back
The good old days!

Aanya Pandey, Student 9 Sirius

My Dream

My dream holiday location Will be a jungle full of green A place of peaceful isolation Surrounded by huge oakwood trees I will wake up every morning to the beautiful sunrise Every day I'll go exploring Oh! It'll be so nice! I will have a panda as a pet I will make friends with birds in the nest There will be many pests too In my peaceful abode So this is the place I want to go.
Akshara Rajaram, Student 9 Sirius

Dreams
Last night In my cosy bed In my blanket tucked I dozed off From the world of reality I was cut Daffodils swayed on clouds And fairies speaking out loud I wish I could stay a little more Dream of oceans and the shore.
Alisha Khan, Student 9 Sirius

Enjoy life and be happy
Smile through everything Enjoy every bit of life 'cause it's magical Every little moment is precious There might be days when you feel low And unhappy but Smile through it as well thinking That life could be worse The situation could be much more difficult. Why do we wake up every day? To achieve our goals, to make new dreams, To do something new to be happy, to conquer our fears But most of all to enjoy life. Thank God for giving us such a beautiful life Which surely has many ups and downs but also gives us the hope, The will, the strength to get through all our difficulties.
Dhruva Wafgaonka, Student 9 Vega

To Do The Right

There once was a boy Who had to make a choice, Either to silently suffer Or to stand up and have his own voice. The boy was at a crossroad He didn't know which route to take But deep down inside him, He knew the decision he had to make. It was like a war between the heart and mind, Where the mind wanted to go with the most sensible Which was far from what his heart told him That is to do what is most ethical. It took the boy a long while to decide Eventually one of the rivals won the fight At the end he was left with one thought alone, "To not do what is easy but to do what is right."
Aayushi Kumar, Student 9 Sirius

धरती को स्वर्ग दिखाई दे

अरे मानव कुछ करो यत्न धरती को स्वर्ग बनाने का करो प्रयत्न कभी नहीं हो दोहन इसका, हर ओर हरियाली दिखाई दे | जंगली जीवों के संरक्षक हम बने दिखाई दें | साफ करो कचरे को ताकि धरती स्वर्ग दिखाई दे | जल संरक्षण करो ताकि नदियों की कल-कल सुनाई दे | वृक्षारोपण करो ताकि वायु भी स्वच्छ दिखाई दे | शुद्ध वातावरण में हर जीवन जीता दिखाई दे | विदुषी पांडेय , विद्यार्थी 9 वेगा

Have fun learning French!

À la rentrée: A French Expression
Symbolic Meaning: See you in September
Literal Meaning: Until the return

The month of August isn't the best time to visit l'hexagone. Schools and clubs are en congé, the government is all but shut down, and many businesses are closed. It's family vacation time, when students, club members, and many employees know that they won't be seeing each other for a while, so they use a special valediction: à la rentrée, which can be loosely translated as See you in September. Many cultures have back to school sales and activities, but la rentrée is much more than that – it marks the entire country's return to normalcy after the summer break. It's time to go not only back to school but also to work, as well as catch up with friends, clubs, choirs and teams. La rentrée refers to returning home and getting back to real life, and à la rentrée is a quick and easy way to say, good-bye, have a great vacation, see you in September.

Ananth Syam, Student 10 Sirius

Virtue Alone Ennobles

Honesty

Today, education is not just confined to books. It goes much beyond that. In today's world, what is most important is a child's holistic development. Therefore, parents focus on extracurricular activities and value education along with academics. One core value of life is honesty. What exactly is Honesty? In simple words, Honesty implies being truthful to others; above all, being true to ourselves. Honesty does not only mean speaking what is right; it means upholding the truth. When people are honest, they are confident. If one is confident it is easier to make friends. A person who is not honest, will never enjoy true friendship. In conclusion I can say that being an honest person is very important because one gets the opportunity to be a better human being. Not being honest brings unhappiness and that doesn't allow us to enjoy life.

Shruvil Shrivastava, Student 10 Rigel

Personality of the month

Volodymyr Zelenskyy

Volodymyr Oleksandrovych Zelenskyy, commonly transliterated as Zelensky, is a Ukrainian politician, former actor and comedian, who is the sixth and incumbent president of Ukraine. Zelenskyy grew up as a native Russian speaker in Kryvyi Rih, a major city of Dnipropetrovsk Oblast in central Ukraine. Volodymyr Oleksandrovych Zelenskyy was born to Jewish parents on 25 January 1978 in Kryvyi Rih, then in the Ukrainian Soviet Socialist Republic. His father, Oleksandr Zelenskyy, is a professor and computer scientist and the head of the Department of Cybernetics and Computing Hardware at the Kryvyi Rih State University of Economics and Technology; his mother, Rymma Zelenska, used to work as an engineer. Prior to starting elementary school, Zelenskyy lived for four years in the Mongolian city of Erdenet, where his father worked. Zelenskyy grew up speaking Russian. At the age of 16, he passed the Test of English as a Foreign Language and received an education grant to study in Israel, but his father did not allow him to go. He later earned a law degree from the Kryvyi Rih Institute of Economics, then a department of Kyiv National Economic University and now part of Kryvyi Rih National University, but did not go on to work in the legal field. Before he entered politics, Zelenskyy was a comedian, actor and writer, starring in romantic comedies and as a high school teacher who becomes president in the Ukrainian political satire series, Servant of the People. His magnetism and skill at orating have been on display since Ukraine was invaded by Russia. His courage, passion and resolve drew praise from around the world. As is common knowledge by now, Russia invaded Ukraine in February 2022. His plan to deal with the situation at the time was to calm the populace and denounce imminent war. Once the invasion started however, he initiated martial law across Ukraine and mobilised the armed forces. Zelenskyy has long been a proponent of social media enabled publicity campaigns and it is what he used to get in power. However, we can see that this strategy has gone into overdrive as the entire world clamoured over Zelenskyy's admirable leadership and courage in these difficult times. How much of this is marketing or genuine courage is up to your skepticism to decide. Great leaders are made under pressure surely no other statement can describe the situation Zelenskyy has found himself in. Ironically enough, his situation bears a striking similarity to the situation of Winston Churchill. Perhaps it was for this very reason that Zelenskyy decided to echo Churchill's sentiments and cadences in one of his speeches. Public opinion around Zelensky and Churchill was quite low before their respective wars, but the conflict catapulted them into the spotlight, a few key decisions and the world was on their side. Perhaps the one and only misstep that Zelenskyy might have made would be putting his hopes and expectations in the hands of NATO, because when Ukraine needed it the most, NATO did not support them. Now Zelenskyy has been forced to change his stance on the matter, adopting a more neutral stance by saying that he never intended to join NATO in the first place. This does rub some salt on the wound of the war because it does mean that the conflict mostly amounted to nothing, and countless lives were lost.

Siddharth Mago, Student 12 Antares.

Teachers' Corner

Post Covid Schooling (1st April)

The new academic session began with a buzz of excitement for classes 1 to 5. Children came to school eager to meet their friends and teachers. Teachers too were excited to welcome the children after two long years. The day began with an interactive session where the young minds shared their experiences and their time away from their friends. Students were encouraged to keep their masks on and to sanitise their hands regularly. This was not done solely for the purpose of hygienic protection, but also to demonstrate awareness about COVID-19. After the many months of distance learning, which was challenging for children, parents, and teachers alike, the willingness to go back to normal learning processes is now demonstrably high. The positive note is both encouraging and motivating.

Harpreet Gandhi, CT 2 Deneb

Microsoft Teams Training for Teachers (8th April)

The Microsoft Teams Teachers training was organised at The Orbis School, Keshav Nagar. The resource person for the training programme was Ms. Neelima Kotrike. The objective of the training programme was to equip teachers to understand the technicalities and proper usage of Microsoft Teams and its applications.

Sanjukta Santra, CT 4 Deneb

In-House CBSE Workshop (9th April)

Teachers' Training Programme is an integral and a continuous process of any educational institution. It helps teachers enhance their skills and develop better and newer proficiencies. Keeping this in mind, a one-day in-house training programme was conducted by the teachers for all the teachers across the wings on the 9th of April 2022 at the Orbis School, Keshav Nagar. The resource persons for this training programme were in house teachers and they covered topics such as First Aid, Effective communication, Anger management, Happy teachers make Happy Classroom and Activity based learning.

The objective for this training programme was to equip teachers with newer techniques, methods and ideas to inculcate in their daily teaching. The session also emphasised on enhancing communication skills, boosting confidence, and overcoming barriers in communication. It provided teachers with simpler techniques in managing anger and also made them understand how activity-based learning can provide lifelong knowledge, break the monotony in class and make learning more interesting. This training session was attended by teachers from Pre- Primary to class 12. It was a wonderful session. Teachers participated wholeheartedly and left feeling happy and satisfied with what they had learnt.

Kids Loop Workshop by Chrysalis Team (24th April)

The academic year, 2021-22, ended with an interesting webinar conducted by Mr. Bala from the Team Chrysalis to reflect upon the journey of a teacher as a researcher. The workshop began with an interesting activity, where teachers had to reflect upon the things they did in the last twenty four hours and how they were grateful to any one particular person who did something special for them in that time period. The teachers then shared their beautiful thoughts about the person they were grateful to and why. Moving forward towards the main focus of the workshop, Mr. Bala put forth a big question to the teachers as to why we are using Chrysalis keeping in mind the students and the teachers. Further, Mr. Bala explained the term 'Blended Learning' using examples of the students. As informed by the Chrysalis Team, the Mitra App and Buzzle App will be deactivated from the 1st of May. The school will now use a new application 'Kids Loop'. The new app was very well explained by sir. The teachers found the app really interesting and helpful.

Lynneta Van Maanen, CT 3 Antares

Staff Club - Orbis 1, Keshav Nagar

"All work and no play makes Jack a dull boy"- We, at The Orbis School, once again celebrated Staff Club in the month of May 2022. This was the first staff club held after the school reopened in April. The theme was 'Summer Cool' and all the staff members were in a very good frame of mind. The decorations, ambience and the gathering were vibrant. Staff Club is held once in four months, and it helps to release the work stress and to share a few moments with each other. This time it was organised by Middle School and a number of songs were sung by happy teachers. There were many moments of laughter and merriment. The dancers sizzled the stage at the end of the show. I am sure each staff member will be eagerly awaiting the next fun filled get together.

Rajashri Roy Das, CT 3 Sirius

Parents' Prerogative

Orbis school has become the second abode to my child. From teachers to help staff to transport staff, everyone grows a sense of belonging in the children. The school provides the optimum environment for all round development of children who have lost a part of their childhood in the pandemic. At the same time, the virus protocols, hygiene and medical awareness is followed to keep healthy and stress-free premises. I hope to see my child grow up to be a compassionate and capable human being. I believe Orbis School will go a long way in shaping this vision of mine.

Swagata Saha, Parent-Shalaka Ghosh, Nursery Apple

April and May have been the months of Board exams for the students of classes 10 and 12. As a parent of a student appearing for the Boards post pandemic, I felt less anxious because of the support the students and the parents received at every step. I would like to take the opportunity to thank the management and the entire academic team for the hand holding and support.

Aawwadh Gupta, Parent - Anupria Gupta, 10 Deneb

I can do it!

- How did Zelenskyy's Presidency face a paramount conflict with Russia?
- Why is Zelenskyy termed as much of a celebrity as a leader?
- Zelensky and Winston Churchill: Flash forged leaders, is it true?
- How is Zelenskyy the man who waited for NATO ?

From The Editorial Team

Eyes

So strange are these eyes
They'll show you if a person is
kind or wise
Eyes expose all lies
And love and affection and everything nice
Such is the beauty of eyes

Jhanvi P, Class 9 Antares

Orbis 1 Chief Editor - Anjali Srivastava Co- Editors - Swapna Phulphalgar, Olivia M., Sukhjeet Kaur, Student members of the editorial club.

Thought for the month

April was just beginning, and after the warm spring day it turned cooler, slightly frosty, and a breath of spring could be felt in the soft, cold air. - **Anton Chekov**
