From the Principal's Desk

In a land of festivals, like India, celebrations bring a lot of colour and sweets into our homes. Each community has traditions handed down from parents to their children. India is a heterogeneous country. The essence of all our auspicious days remains somewhat the same. Elders are paid respect to. The little ones are blessed. Homes are cleaned and a hearty table is laid. Guests are welcomed with honour. The affluent and the not so affluent all celebrate as per their means. These are the special days that make us a little more aware of our 'belongingness' to our family and our friends.

It is equally important for each one of us to understand that we belong to a beautiful planet. How we take care of it today determines our tomorrow. If we keep the Earth as clean as we keep our homes, respect it, we will be blessed with a beautiful environment and good health. To celebrate responsibly, to share and to care is a core value we all must practice every single day, for we all belong to each other in some way or the other.

Smita Pendharkar, VP

Big News!

It is the teacher who makes a difference in the classroom. In lieu of Teachers' Day, the BJP Education Cell, Pune organised the NEEV Awards- An award for teachers and Principals on the 18th of September, 2022 at the MICCI Auditorium. The purpose was to encourage and appreciate the hard work put in by educators to provide the best to our children. Ms. Smita Pendharkar, Vice Principal and Ms. Harpreet Kaur Gandhi, the PRT teacher of The Orbis School Keshav Nagar were felicitated at this event. A proud moment for all!

Flavours from our orchard

Teachers' Day (2nd September)

Teachers' Day in India is celebrated to commemorate the birth anniversary of Dr. Sarvepalli Radhakrishnan.

The influence a teacher makes on students exceeds beyond the classroom. At the Orbis School, Teacher's Day was celebrated in a very upbeat manner. The tiny tots expressed their love for the teachers through hand made cards, beautiful thoughts and broad smiles.

Hufrish Dutt, CT Sr. KG Orange

Feelings (5th September- 8th September)

Every moment is a feeling. Children must understand their feelings and be able to express them to the right people at the right time. The little ones through experiential activities learnt how to identify and express different feelings. The Jr. KG and Sr. KG children were excited to imitate different feelings in front of the mirror and were delighted to draw faces with different emotions in their books.

Uttama Purohit, CT Sr. KG Apple

Hindi Language Week (12th-16th September)

A large population living in India uses Hindi language as its common colloquial means of communication. The Hindi language has originated from ancient Sanskrit. The Nursery, Jr. KG and Sr. KG classes enjoyed Hindi recitation of Rhyme Relay. The children were able to memorise the verses easily once they were set in catchy tunes. Jr. KG and Sr. KG students enjoyed the Hindi stories of 'Khargosh and Kachhua' and 'Topiwala aur Bandar' respectively. The students were taught about the value of Hindi language and how it helps our diverse country connect together.

Meenu Sharma, CT Sr.KG Mango

Animals (19th Sept - 30th Sept)

Our little ones in the nursery learnt more about animals through many activities. They made puppets and learnt about the different sounds animals make, their homes, their different body parts and other details were learnt in fun ways.

Princica Daniel, CT Sr.KG Mango

Orbiloqui (19th - 23rd September)

Knowledge is treasure and expression of knowledge is the reflection of confidence. Both age appropriate knowledge and confidence were clearly evident at our Annual Literary Showcase Event, the Orbiloqui. The Orbiloqui is a showcase event displaying the oratory and acting skills of students. Our Nursery students participated in a Show and Tell and Rhyme Relay, the Kindergarteners participated in quiz, show and tell, thematic synopsis, culmination sentences, Rhyme Relay and I See. All felt jubilant and were well appreciated.

Amrita Kar Dhar, CT Jr.KG Apple

I Know More, I Grow More

Inter house Science Quiz (24th August) 6-8

An Inter House Science quiz was conducted for classes 6 to 8. Equal opportunities were given to all the Houses along with a set time limit and the participants had to answer keeping track of the timer. It was a platform where scientific knowledge was tested in a competitive way.

Krish Aditya, Student 6 Sirius

Robofest (26th-27th August)

Robofest, an Inter School Robotics Competition, was held at DPS, Pune. A team of four members - Bhavikk Sanghvi, Darsh Pathak, Nidhish Shah and Aksh Neema, took part in this event. The event began with a welcome speech by the principal followed by very inspiring words from the CEO of OMOtech. He, along with the others, met with each team. The Orbis School Team demonstrated the process of the making and functioning of the head and hand gear made by them from recycled materials. The next day, the Robo Genius instructors started the session with a workshop on motors, sensors, NXT bricks followed by coding, after which they gave each team a challenge to work upon. The Orbis team - 'The Soul Logic' stood 3rd in the competition. The interaction with the other students from different schools and the learning experience is something which will remain forever. It was truly a celebration of learning.

Bhavikk Sanghvi, Student 8 Sirius

Installation Ceremony (1st September)

The Installation Ceremony where Interact Club introduced its new office bearers and President for the Academic Year 2022-23 was held in the school's Multipurpose Hall. The President of Rotary Club, Rotarian Moiz Chakkiwala, Co-Chairman Rotarian, Prince Paul and Guest of Honour Rotarian Hema Pandey were the distinguished guests from the Rotary Club of Pune Cantonment along with our respected Director Rotarian Haseeb Faquih. The Installation Ceremony was taken forward by introducing the new office bearers, a speech by the outgoing president Shrestha Sharma and the pinning ceremony of this year's President and Secretary. The roadmap for this academic year was shared by the new President, Jyotsna Tiwari. The members of the Rotary Club of Pune Cantonment motivated and encouraged the young minds with their pearls of wisdom. The ceremony culminated by clicking a few pictures with the entire team and the school song. It was truly a memorable event for the Interact Club of The Orbis School, Keshav Nagar.

Jyotsna Tiwari, Student 7 Vega

Teachers' Day Celebration (5th September)

Teacher's Day is a special day when we pay our respects and offer our gratitude to all our teachers. Like always the celebrations were filled with a lot of laughter and cheer. Teachers spent time with the students and then were entertained by a wonderful performance by them. Simple hand made cards filled the hearts of teachers with delight and they felt well appreciated. Nothing gives more joy to a teacher than seeing her students grow, flourish and prosper.

Sheetal Bhosale, Marathi Teacher

Poster Making - World Literacy Day (8th September) 3-8

A literate society leads towards a sustainable society. The first International Literacy Day was celebrated in 1967. It began as an initiative to remind the common people about the importance of literacy to ensure dignity and human rights for all. At The Orbis School, students of Classes 3-8 participated in a poster-making activity with great enthusiasm, to spread awareness about the importance of literacy. Students representing each house brainstormed in their respective House teams and came up with brilliant ideas. Although just one house won in the competition, the fun and thrill of working together made it worth it for all.

Diya Vettathu, Student 8 Sirius

Temperature Rise

- The Earth is now about 1.1°C warmer than it was in the 1800s. We are not on track to meet the Paris Agreement target to keep global temperature from exceeding 1.5°C above pre-industrial levels. That is considered the upper limit to avoid the worst fallout from climate change.
- 2015-2019 were the five warmest years on record while 2010-2019 was the warmest decade on record.
- Global surface temperature has increased faster since 1970 than in any other 50- year period over at least the last 2000 years.
- On the current path of carbon dioxide emissions, temperature could increase by as much as 4.4°C by the end of the century.
- In 2019, greenhouse gas concentrations reached new highs. Carbon dioxide levels were 148 per cent of pre-industrial levels.

Eco Friendly Ganesha (8th September)

Every year the festival of Ganesh Chaturthi brings a lot of happiness, prosperity and positivity. This year the importance of it increased as we all came together physically again to celebrate this festival after almost two years. We, in The Orbis school, celebrated Ganesh festival in an eco-friendly manner. Students of classes 1 and 2 made eco-friendly Ganesh idols, coloured them and looked proud of their creations. Ganesh Visarjan was done in an eco -friendly manner and pictures were stuck in scrap books.

Shikha Dixit, CT 2 Vega

Half Yearly Examination (12th-23rd September)

With most cultural, literary and sports events for the first half of the academic year successfully conducted, students geared up for the Half Yearly Examination with focus and intensity. Classes 3 to 12 were well informed about the rules and requirements of taking the examination. All were prepared and looked confident.

Home visit

My class teacher along with a subject teacher visited me and my parents at home, informally. I was nervous at first but then I felt confident as we started to talk and share. We had a simple chat about the various activities I do, as well as how different I am when I am in school and when at home. I discussed a few issues I face in class which I was not able to share with my teachers in school and my class teacher helped me find a solution for it. I hope these interactive sessions happen frequently to not only track the performance of the students but also build a good bond with the teachers.

Kshitij Agarwal, Student 7 Vega

Hindi Diwas (14 सितम्बर)

हिन्दी दिवस प्रत्येक वर्ष 14 सितम्बर को मनाया जाता है। 14 सितम्बर 1949 को संविधान सभा ने यह निर्णय लिया कि हिन्दी केन्द्र सरकार की आधिकारिक भाषा होगी क्योंकि भारत में अधिकतर क्षेत्रों में ज्यादातर हिन्दी भाषा बोली जाती थी। इसलिए हिन्दी को राजभाषा बनाने का निर्णय लिया और इसी निर्णय के महत्व को प्रतिपादित करने तथा हिन्दी को प्रत्येक क्षेत्र में प्रसारित करने के लिये वर्ष 1953 से पूरे भारत में 14 सितम्बर को प्रतिवर्ष हिन्दी-दिवस के रूप में मनाया जाता है। स्वतन्त्रता प्राप्ति के बाद हिन्दी को आधिकारिक भाषा के रूप में स्थापित करवाने के लिए काका कालेलकर, हजारीप्रसाद द्विवेदी, सेठ गोविन्ददास आदि साहित्यकारों ने अथक प्रयास किये !

The Orbis School ने हिंदी दिवस को और महत्वपूर्ण बनाने के लिए हिंदी साहित्य से सम्बंधित कार्यक्रम का आयोजन किया। जिसमें विद्यार्थियों द्वारा हिंदी भाषा के महत्व, उपलब्धियाँ तथा साहित्य की सुंदरता पर प्रकाश डाला गया। कक्षा ३ के विद्यार्थी - हिंदी भाषा पर नारा घोषणा पत्र सहित (with placards), कक्षा ४ के विद्यार्थी - कबीर दास , रहीम दास , सूरदास तथा रविदास के दोहों का अर्थ सहित प्रस्तुतीकरण किया तथा कक्षा ५ के विद्यार्थियों ने प्रसिद्ध कवियों की कविता गायन किया।

कार्यक्रम का समापन बड़े ही सुंदर ढंग से किया गया।

प्रीति पाठक - कक्षा ४ , ५ हिंदी अध्यापिका

Club of the month

Quiz Club

The Quiz Club is a challenging place. Our motto is learning to the fullest and the mode of functioning is quite simple. The students are given a topic on which they prepare questions. They then have to conduct a quiz in the class. The method of conducting the quiz is taught here in a practical way. Our respected teachers Silviya Ma'am and Deepali Ma'am guide us through this process. We have students from classes 6, 7, 8 and 9 who actively take part. From current affairs to history, from art to science, from space to earth; the students have conducted quizzes from a wide range of genres. Apart from the classic mode of quiz, we also use modern ways like presentations and videos that are both visually appealing and informative. Audience engagement and stage presence are two important skills we learn here at the Quiz Club. These factors together make the quiz club a great choice.

Shaurya Singh, Student 8 Sirius

Photography Club

Photography is one of the major interests of people who appreciate distinctiveness, and beauty in their surroundings. It is a process that helps in defining the procedure to create stationary or moving pictures using photographic lenses in a camera. It has various applications in the field of business, filmmaking, science, marketing, tourism, fashion, advertising, and a lot more. Photographers when clicking a photo keep in mind that the photo is framed properly, the source of light is present in sufficient amount and there is a story behind the picture. In the club, we learned to use the camera and how to click photos with it. We have had various hands-on activities where we experienced various types of photography like food, fashion, wildlife, and nature photography. In an activity, Fun With Colours, children had to pick a colour and incorporate various types of photographic skills and make a collage adding all the different photos obtained. This was a group activity and the results turned out to be beautiful while children got to know more about real-life photography. We also shot photos in the school in a manner that enhanced our creativity greatly. To capture every moment of your life do join the photography club.

Farhan Khan, Aayushi Kumar, Students 9 Sirius.

Craft Club

Co-Curricular activities are an Integral part of the school curriculum at The Orbis School. Craft activities enhance the children's dexterity and agility. By engaging in creative pursuits of craft, children get the opportunity of expressing themselves in a positive, tangible and meaningful way. It is a fun way for students to learn about turning different objects into works of art. The activities are easy, thought provoking and educational. Crafts interrelate culture, science and maths. Upon completion of a particular activity, the students display their craft work with great interest and enthusiasm. It is a complete delight to see their creation with paper, origami and the idea of making best out of waste which is encouraged in some of the activities. It gives the children a sense of achievement on completion of work. Both students and teachers enjoy the activities.

Lynnete Van Maanen, CT 3 Antares

Culmination of Quiz Club (30th September)

Young minds are always eager to learn new things. It keeps them occupied and more importantly skills are developed. With Club activities, learning in school becomes interesting and enjoyable. The Quiz Club for the youngest ones in school culminated with a round of quizzing and it has been a productive and learning time for all members of the club.

Swati Poddar, CT 1 Deneb

Hindi Diwas (दिनांक १४ सितंबर २०२२)

हिंदी दिवस के उपलक्ष्य में कक्षा १ और २ के छात्रों ने विशेष सभा प्रस्तुत की | सभा का विषय था राजसभा | कक्षा २ के छात्रों ने हिंदी दिवस पर गाना प्रस्तुत किया तथा हिंदी दिवस पर आधारित भाषण दिया | कक्षा १ के छात्रों ने कविताएँ प्रस्तुत की और अध्यापिका भावना डफ जी ने हिंदी दिवस का महत्व छात्रों को समझाया | सभा के अंत में हमारी समन्वयक अध्यापिका जी ने सभा में छात्रों को हिंदी दिवस के बारे में जानकारी दी |

कक्षा १ और २ के छात्रों हिंदी दिवस पर मिलकर रैली निकालकर नारे लगाए |

Pooja Pandey, Hindi Teacher

Our Green Ways

It is the duty of every human to work towards conservation and sustainability and that is exactly what the nature club aims at. Every activity of the club aims at learning ways to be in harmony with our surroundings. From planting trees, creating posters and making herbariums to learning about medicinal plants, our club covers a plethora of projects. With modernisation, the world has become a village and no place is out of reach for humans. However, the negative environmental effect of it cannot be ignored. Most tourists are not sensitive towards the damage caused to local wildlife and ecosystems. To highlight these issues and bring about an awareness about ecotourism, the members of the club performed a play. The principles of ecotourism include Building environmental and cultural awareness and respect. Providing a positive experience for both visitors and hosts. Providing direct financial benefits for conservation. I would like to conclude with the hope that each of us benefits the title of 'A Responsible Tourist'.

Shlok Deshaval, Student 8 Vega

I did it

Robofest

At the Robofest held at the DPS, Pune, The Orbis Science Team, The Soul Logic' won the third position. Our students did a commendable job. We congratulate the team members; **Bhavikk Sanghvi** and **Darsh Pathak** of Class 8 Sirius, **Nidhish Shah** of Class 8 Rigel and **Aksh Neema** of Class 7 Sirius. Wishing them many more laurels in the future.

Times Website

Shreshtha Sharma of Class 8 Sirius has been selected as the national topper for her contributions towards the Times Website. She was awarded with a Lenovo Tab. Many congratulations and may she keep writing and rising.

Tiranga

Avani Patil, Pranvi Patil and Aanaya Gupta of Class 1 Vega won the Second position in the jewellery making contest hosted by Amanora School, Pune.

Inara Syed of 3 Sirius won the second position in the Elocution Competition hosted by Amanora School, Pune. We wish her the best and feel very proud of her for participating and winning in such a prestigious event.

Impressions and Expressions

Blue

A small grey village
One that's a little too familiar.
It sounds so bitter
But it changes when you are here.
These melancholic, sleeping streets
Know exactly when to wake alive
When you're with me
I doubt a single tree would miss your time.
So lonely you paint
Colours splashing all over these walls
How wonderful it looks, that change
When once grey, take up the scenery of a waterfall.
As always it is a delight
When the sky shimmers soft and dim
And the way it reminds
Of something sweet and bright.
Aleeza Shaikh, Student 8th Vega.

To Be.

Be as loving you can be,
Always be polite to others,
And listen to your father and mother.
Study hard and keep trying,
Don't ever even try lying,
Always help anyone who is crying
Keep your uniform clean and your shoes shining.
Remember to say please, thank you and excuse me.
For everyone to talk to you politely
Sleep early and wake up early
Get up in the morning and get ready
Follow these small steps and
You will be everyone's favourite.
Tanvi Tete, Student 5th Sirius

Pollution

Earth, our home, was once very cold,
As our scientists us told.
Time, we have to save
nature is more precious than gold.
Stop creating pollution,
Save the earth for future generations
Plants spread greenery as we can see
Cutting them just shows our cruelty.
Please stop deforestation,
Save the earth for future generations.
Shlok Deshaval, Student 8 Vega

Life

When something's nice, we say it's fate.
Now when the blessings crumble,
And we are sad, 'cause it's too late,
The soul is gloomy but the face is smiling,
Behind happy, jolly grins,
No one knows what is hiding.
When life is happy, we are afraid of sad,
And when it's really cloudy, the constant rain drives us mad.
Life's not a race,
Life's not solely focussed on what we face.
Keep the head up my friend,
And walk on both thorns and roses with grace.
Aanya Pandey, Student 9 Sirius

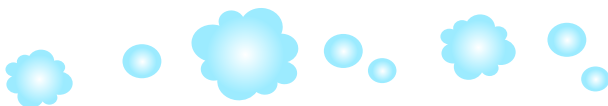

Have fun learning Marathi!

मानवाला मिळालेली देणगी -
मनुष्याच्या बोलण्यावरून त्याचे शिक्षण संस्कृती परंपरा हि माहिती चटकन कळते. व्यवस्थित बोलून अनेक कामे करून घेता येऊ शकतात . पशु पक्षी यांना बोलता येत नाही. एका विशिष्ट आवाजाशिवाय ते आवाज काढू शकत नाही. भाषा ईश्वराकडून मिळालेली अपूर्व देणगी आहे. म्हणूनच मनुष्य एक भाग्यवंत आहे जो अनेक भाषा बोलू, लिहू आणि वाचू शकतो. मधुर शब्दांनी माणसे जवळ येतात. भाषेचे वैभव वाटतचला अन आनंदी राहा.

Information about a person's education and culture can be quickly learned from his speech. Speaking makes life simpler. Animals and birds cannot speak. They chirp, neigh, howl and so on. Thus our voices are special and language sacred. That is why human beings are fortunate that they can read, write and express their thoughts, feelings and emotions using words. Sweet words bring people closer. Let us feel and enjoy the glories of language and respect one another by using good words.
Swara Jawale, Student 7 Antaras

Personality of the month

Jagdeep Dhankhar

Jagdeep Dhankhar, a well known politician, prominent lawyer and an enthusiastic leader is now the current 14th Vice President of India, succeeding Shri Venkaiah Naidu. He was born on 18th May 1951 in the Kithana village of the Jhunjhunu district of Rajasthan. Being born in a village, he received his elementary education till class five from the Kithana Government School. Later he got enrolled in the Sainik School, Chittorgarh for further studies. The persistence to never quit and the will to achieve greater heights did not let him stop here. For his higher education he got enrolled in the Maharaja College, University of Rajasthan and received his law degree from there. Further, he also joined the Bar Council of Rajasthan as an advocate in 1979. From thereon, his successful career as a lawyer began. With the inherent quality of critical judgement, not only did he establish himself as the senior most advocate of Rajasthan but later in 1990 he also practised in the Supreme Court of India. The hunger for excellence and the passion for relentless service did not restrict him in the legal field. Later in life, he entered politics and served at various designations, from being the member of Rajasthan Legislative Assembly to the member of Lok Sabha. Wherever he went glory followed him. In his political career, Jagdeep Dhankhar achieved his most acclaimed success as the Governor of Bengal which led him to be nominated as the Vice President candidate in July 2022. Finally on 11th August 2022, Jagdeep Dhankhar took the oath as the Vice President of India.

His journey from a small village to the most venerable post of the Vice President of India in itself is an inspiration which continues to inspire millions to stand up like him.

Gunjan Sagar, Student 12 Deneb

Virtue Alone Ennobles

What is belonging? Where loneliness ends. - Rivers Solomon

No matter how great or ordinary, how smart or kind, we are, people are always trying to fit in, so that they can belong somewhere. It could be in a school, among relatives, friends or even on this Earth. The very desire to belong is felt by us all. Belongingness is a bittersweet mixture of rejection, acceptance and alienation - the right 'group' or 'community' which will accept us and make us feel confident about our true self is the place where we belong. Family is the first group we walk into. Personal relationships with families affect our other relationships as well, as our bond with family influences our personality the most. Nature, out of all, accepts us unbiasedly. Exposure to nature is correlated with improved well-being and a stronger sense of belongingness. It never stops giving, and it never judges. It doesn't make one feel inferior and treats everyone equally. That's why we call Nature, 'Mother Nature'. Only a mother has the power to love boundlessly, to love unconditionally. This is the reason we feel like we belong with them. Our mood lifts when we spend time with nature. A community, however, may take time to understand and accept us. But no matter what, we don't need to change ourselves to please them. The right community will accept us the way we are. Be bold, be brave, be YOU, because that is one thing no one can imitate, and one thing everyone will respect about you. The journey from insecurity and loneliness to belonging and self-acceptance is a long path, but believe me, we will get there!

Jhanvi Pendyala, Student 9 Antares

Teachers' Corner

Ganapati - Favourite festival of all

Ganapati festival is a favourite festival for all, young and old. After two years of isolation, September 2022 was bright and colourful with different shades of yellow and orange and red. Families reunited, friends were invited, neighbours in societies gathered to chant the aarti and celebrate. There was a lot of laughter, joy, food, modaks and warm hugs for each other. This is the real strength of the Ganapati festival. The last day was the day when the dhol tasha was played by the young enthusiastic participants in Pune. They played to their heart's content. I hope Lord Ganesha bestows his blessings and gives Sudbuddhi to each one of us. Ganapati Bappa Mourya.

Rajashri Roy Das, CT 3 Sirius

Teacher's Award I.I.H.M (24 th September)

It was a moment of great pride and honour for the Orbis School when our teachers Ms. Nupur Gupta and Ms. Firdous Khan were awarded the Best Teachers' Award by the I.I.H.M, Pune. They were felicitated with trophies and certificates. We congratulate them and wish them many more years of success.

Parents' Prerogative

Words of Appreciation

This is my ward's first year with the Orbis family. It has come as a new beginning of schooling with a learner centred curriculum especially when children are back to physical school. The flow of learning, examination pattern and schedule keep schooling going without any extra pressure of studies. While choosing school, I went with just the name of the school and now I feel my decision is proven to be correct. I look forward to my ward and the school growing together.

Monika Singh, Parent of Kian Singh, Class 3 Sirius

Nivaan is a student of class 1. This was his first year with offline classes. The transition from online to offline was smooth and teachers gave enough support to make the children comfortable in the classroom. Each day he is excited to go to school. He is always looking forward to getting on the school bus where they get an opportunity to travel with their friends. The concept of being monitors in class; discipline, health, hygiene and transport excites the students.

He also got an opportunity to be emcee during Orbiloqui that reflected his confidence in public events. Thank you teachers, coordinator, headmistress ma'am for having confidence in him and giving him opportunities to present himself in so many school events.

Looking forward to having a wonderful journey with The Orbis School .

Priyanka Maheshwari, Parent of Nivaan Maheshwari, Class 1 Rigel

I am extremely happy to see my child growing up in the Orbis School. The kind of teaching and the curriculum is progressive and very child friendly. All the teachers of class 1 Deneb where Rhidaan is studying are extremely polite and co-operative. Thank you for all the help and support.

Sayantani Deb, Parent of Ridhaan Deb, Student 1 Deneb

EPTA Meeting (17th September)

The second EPTA meeting was conducted in the Multi Purpose Hall (MPH) of the Orbis School, Keshav Nagar. A total of twenty four members were present. The Chairperson, Mrs. Smita Pendharkar presided over the meeting. Agenda points were discussed and concerns raised by the parents duly addressed.

The meeting helped in creating a better understanding and building harmonious bonds between the school and the parent fraternity.

Farheen Shaikh, Secretary EPTA

What Is Climate Change?

Climate change refers to long-term shifts in temperatures and weather patterns. These shifts may be natural, such as through variations in the solar cycle. But since the 1800s, human activities have been the main driver of climate change, primarily due to burning fossil fuels like coal, oil and gas.

Burning fossil fuels generates greenhouse gas emissions that act like a blanket wrapped around the Earth, trapping the sun's heat and raising temperatures.

Examples of greenhouse gas emissions that are causing climate change include carbon dioxide and methane. These come from using gasoline for driving a car or coal for heating a building, for example. Clearing land and forests can also release carbon dioxide. Landfills for garbage are a major source of methane emissions. Energy, industry, transport, buildings, agriculture and land use are among the main emitters.

I can do it!

1. What subject did Jagdeep Dhankhar do his Bachelors in?
2. Where did he first practise as a lawyer?
3. Why do you think he was called a 'Reluctant politician'?
4. What were his childhood interests?

From the Editorial Team:

Kind words

Please, thank you, and I'm sorry,
Are such nice words to say
To many people around you
For what they do each day.
"May I borrow your eraser, please?"
"Thank you for helping me with my work."

"I'm sorry for shouting earlier"
Or any other kind word.
Please, thank you, sorry ,etc
Are such nice words to say.
Try them once and try them twice
You'll like to talk that way.
Riddhi Jain, Student 6 Deneb
